(1) Includes one property classified as held for sale of \$2.3 million, which totals 150,000 square feet.

### Third Quarter Activity:

- **Acquired property:** Acquired an \$8.5 million industrial property located in Columbus, Ohio, which is 100% leased to one tenant for 15 years;
- **Expanded property:** Acquired additional land in connection with the current expansion of the parking facilities for one of our Springfield, Missouri tenants;
- **Extended mortgage debt maturity date:** Extended the maturity date on one variable rate mortgage note totaling \$4.0 million from September 2018 to September 2019 and extended the maturity date on one \$3.6 million fixed rate mortgage note from November 2018 to November 2021;
- **Issued new debt:** Borrowed \$4.7 million in mortgage debt that was simultaneously swapped to an all-in fixed interest rate of 5.32% for a 10 year term;
- **Issued stock under ATM programs:** Issued 341,239 shares of common stock for net proceeds of \$6.6 million; and
- **Paid distributions:** Paid monthly cash distributions for the quarter totaling \$0.375 per share on our common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4375 per share on our Series D Preferred Stock, and \$0.2625 per share on our senior common stock.

**Third Quarter 2018 Results:** Core FFO available to common stockholders for the three months ended September 30, 2018, was \$11.9 million, or \$0.40 per share, a 1.1% increase when compared to the three months ended June 30, 2018. Core FFO increased primarily due to a decrease in property operating expenses, coupled with an increase in rental income from our third quarter property acquisition, partially offset by an increase in general and administrative expenses.

Net loss attributable to common stockholders for the three months ended September 30, 2018, was \$0.2 million, or \$0.01 per share, compared to net loss attributable to common stockholders for the three months ended June 30, 2018, of \$0.3 million, or \$0.01 per share. A reconciliation of Core FFO to net loss for the three months ended September 30, 2018 and June 30, 2018, which we believe is the most directly comparable GAAP measure to Core FFO, and a computation of basic and diluted Core FFO per weighted average share of common stock and basic and diluted net loss per weighted average share of common stock is set forth in the Summary Information table above.

**Subsequent to the end of the quarter:**

- **Acquired Properties:** Acquired a \$21.3 million, two property industrial portfolio located in Detroit, Michigan, which is 100% leased to two tenants with a weighted average lease term of 10.5 years. This acquisition was funded with \$0.8 million cash on hand, the assumption of a \$6.9 million mortgage, and the issuance of units of limited partnership interests in Gladstone Commercial Limited Partnership;
- **Renewed lease:** Executed a lease extension through March 31, 2025 with the tenant at our 60,000 square foot property located in Hickory, North Carolina;
- **Issued stock under ATM programs:** Issued 61,045 shares of common stock for net proceeds of \$1.1 million; and
- **Declared distributions:** Declared monthly cash distributions for October, November and December 2018 totaling \$0.375 per share on our common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4375 per share on our Series D Preferred Stock, and \$0.2625 per share on our senior common stock.

**Comments from Gladstone Commercial's President, Bob Cutlip:** "Our financial results reflect consistent performance and stabilized revenues from our high same store property occupancy and the real estate investments made during 2017 and 2018, our ability to lease previously vacant space, and our deleveraging and capital recycling programs. Our third quarter Core FFO per share results of \$0.40, combined with our first and second quarter performance, reflects a 6.5% increase in per share Core FFO as compared to the same period of 2017. We have continued our capital recycling program, whereby we have sold non-core assets and used the proceeds to de-lever our portfolio as well as acquire properties in our target growth markets. We have successfully exited two non-core assets during the first nine months of 2018, including our only fully vacant asset, recognizing a net capital gain of \$1.8 million. We will continue to opportunistically sell non-core assets and redeploy the proceeds into stronger target growth markets. We have acquired a strong industrial asset in Columbus, Ohio for \$8.5 million, which we expect will provide us with incremental rental income over the 15 year lease. Our pipeline of acquisition opportunities has grown in recent months, with the pipeline favoring industrial properties. We anticipate our robust pipeline will result in successful acquisitions during the fourth quarter of 2018. We are extremely pleased with our solid performance over the last several years, and we believe our same store rents should be stable and rising as we continue our growth. We will continue to primarily focus on investing in new properties as we only have 3.3% of forecasted rental income expiring through 2019. We are looking forward to continued growth and success for our stockholders."

#### **Non-GAAP Financial Measures:**

**FFO:** The National Association of Real Estate Investment Trusts (“NAREIT”) developed FFO as a relative non-GAAP supplemental measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and impairment losses on property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions. Gladstone Commercial believes that FFO per share provides investors with an additional context for evaluating its financial performance and as a supplemental measure to compare it to other REITs; however, comparisons of its FFO to the FFO of other REITs may not necessarily be meaningful due to potential differences in the application of the NAREIT definition used by such other REITs.

**Core FFO:** Core FFO is FFO adjusted for certain items that are not indicative of the results provided by Gladstone Commercial’s operating portfolio and affect the comparability of the company’s period-over-period performance. These items include the adjustment for gains or losses from early extinguishment of debt and any other non-recurring expense adjustments. Although Gladstone Commercial’s calculation of Core FFO differs from NAREIT’s definition of FFO and may not be comparable to that of other REITs, the company believes it is a meaningful supplemental measure of its operating performance. Accordingly, Core FFO should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

Gladstone Commercial’s presentation of FFO, as defined by NAREIT, or presentation of Core FFO, does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions.
