(1) Includes a \$1.8 million gain on sale of real estate from two property sales.

(2) Includes one property classified as held for sale of \$2.3 million, which totals 150,000 square feet.

Second Quarter Activity:

- **Extended mortgage debt maturity date:** Extended the maturity date on two variable rate mortgage notes totaling \$13.0 million from July 2018 to July 2020;
- **Issued stock under ATM programs:** Issued 154,073 shares of common stock for net proceeds of \$2.9 million and 50,124 shares of our Series D Preferred Stock for net proceeds of \$1.2 million; and
- **Paid distributions:** Paid monthly cash distributions for the quarter totaling \$0.375 per share on our common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4375 per share on our Series D Preferred Stock, and \$0.2625 per share on our senior common stock.

Second Quarter 2018 Results: Core FFO available to common shareholders for the three months ended June 30, 2018, was \$11.8 million, or \$0.40 per share, a 0.1% increase when compared to the three months ended March 31, 2018. Core FFO increased primarily due to an increase in rental income and tenant recovery revenues from our 2017 and 2018 acquisitions, partially offset by an increase in interest expense due to the increasing interest rate environment.

Net loss attributable to common stockholders for the three months ended June 30, 2018, was \$(0.3) million, or \$(0.01) per share, compared to net income available to common stockholders for the three months ended March 31, 2018, of \$1.8 million, or \$0.06 per share. A reconciliation of Core FFO to net (loss) income for the three months ended June 30, 2018 and March 31, 2018, which we believe is the most directly comparable GAAP measure to Core FFO, and a computation of basic and diluted Core FFO per weighted average share of common stock and basic and diluted net (loss) income per weighted average share of common stock is set forth in the Summary Information table above.

Subsequent to the end of the quarter:

- **Extended mortgage debt maturity date:** Extended the maturity date on one variable rate mortgage note totaling \$4.0 million from September 2018 to September 2019;
- **Entered acquisition negotiations:** Entered contract negotiations to acquire a 156,000 square foot industrial property in the Columbus, Ohio market;
- **Issued stock under ATM programs:** Issued 83,430 shares of common stock for net proceeds of \$1.6 million; and
- **Declared distributions:** Declared monthly cash distributions for July, August and September 2018 totaling \$0.375 per share on our common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4375 per share on our Series D Preferred Stock, and \$0.2625 per share on our senior common stock.

Comments from Gladstone Commercial's President, Bob Cutlip: "Our financial results reflect consistent performance and stabilized revenues from our high same store property occupancy and the real estate investments made during 2017 and 2018, our ability to lease previously vacant space, and our deleveraging and capital recycling programs. We have continued our capital recycling program, whereby we have sold non-core assets and used the proceeds to de-lever our portfolio as well as acquire properties in our target growth markets. We have successfully exited two non-core assets so far during 2018, including our only fully vacant asset, recognizing a net capital gain of \$1.8 million. We will continue to opportunistically sell non-core assets and redeploy the proceeds into stronger target growth markets. Year to date, we have invested \$14.3 million in an

industrial property near the Mercedes-Benz assembly plant in Alabama. We are extremely pleased with our solid performance over the last several years, and we believe our same store rents should be stable and rising as we continue our growth. We will continue to primarily focus on investing in new properties as we only have 3.5% of forecasted rental income expiring through 2019. We are looking forward to continued growth and success for our shareholders."

Non-GAAP Financial Measures:

FFO: The National Association of Real Estate Investment Trusts ("NAREIT") developed FFO as a relative non-GAAP supplemental measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and impairment losses on property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions. Gladstone Commercial believes that FFO per share provides investors with an additional context for evaluating its financial performance and as a supplemental measure to compare it to other REITs; however, comparisons of its FFO to the FFO of other REITs may not necessarily be meaningful due to potential differences in the application of the NAREIT definition used by such other REITs.

Core FFO: Core FFO is FFO adjusted for certain items that are not indicative of the results provided by Gladstone Commercial's operating portfolio and affect the comparability of the company's period-over-period performance. These items include the adjustment for gains or losses from early extinguishment of debt and any other non-recurring expense adjustments. Although Gladstone Commercial's calculation of Core FFO differs from NAREIT's definition of FFO and may not be comparable to that of other REITs, the company believes it is a meaningful supplemental measure of its operating performance. Accordingly, Core FFO should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

Gladstone Commercial's presentation of FFO, as defined by NAREIT, or presentation of Core FFO, does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions.

The statements in this press release regarding the forecasted stability of Gladstone Commercial's income, its ability, plans or prospects to re-lease its unoccupied properties, and grow its portfolio are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.
